

Dilemma by Stephen Bentley.

5 Stars.

He still doesn't know who the F*** he is.

Steve Regan, now known as Ryan, is undercover in Thailand, looking for a Texan named Les Watkins, the biggest drug smuggler in Thailand.

He is using himself as bait to score \$500,000 worth of drugs from the Thai Mafia and to get closer to Watkins.

He becomes involved with Fon, a beautiful Thai woman and they both get involved in the dangerous operation.

Meanwhile, Carlos Vitale and Regan/Ryan's nemesis is in Thailand fleeing from the US after ordering the death of the heads of 3 crime families.

When in mortal danger will he choose his new life or another alternative?

Regan is BACK!

I am so pleased Stephen Bentley has written another Regan story, I LOVE him!!

The first book 'Who the F*** am I?' was brilliant and I wasn't disappointed with this one. Regan is still risking his life and wondering why he is doing it. The story is strong as are the characters. It made me laugh, cry and cringe (some scenes are wickedly descriptive).

The author keeps the story short and sweet with no padding and unwanted descriptions of the scenery; it is pure action and thrills.

I recommend this book and indeed the Regan series they are excellent and a real joy to read.
