

Keep Her Close by M.J. Ford

5 Stars

Girls are going missing, Why?

Six months after DS Josie Masters saved her nephew from a killer clown, several girls go missing in Oxford, they have nothing in common except they spell out Masters' initials. Who is doing this?

Masters is partnered with a new guy, Handsome DS Pryce. Together they investigate these strange disappearances, but all is not as it seems, Masters is being targeted by someone very close.

This was the first book by this Author I have read, and I really enjoyed it! Masters is flawed which gives her a reality so often missing in books.

The book progressed nicely with little clues sprinkled from the start and with a heart-stopping finish. Although this is one of a series of DS Masters stories, you can read it as a stand-alone.

I will be reading more of these books in the future;
