

One Day in December by Shari Low

4 stars

The perfect holiday read

I read this delightful book in an afternoon, relaxing on a lounge with a wine spritzer whilst in Croatia. The writer has managed to cleverly combine the lives of all the main characters into a single day. The four main characters' lives are changed forever by the events that unfold during that day.

The day becomes a collision course with destiny as each character makes choices that will change the course of their lives forever. I was enthralled by the style of writing which portions the day into 2-hourly increments and I was compelled to keep reading as each story developed.

The writer herself has stated that she bases all her books on friendships, and that she hopes that her readers feel that they have met with a friend when the last page is turned and that is exactly how I felt at the end of the book.

It is an absolute pleasure to read a book that keeps you turning the pages, wanting to discover the outcome.
