

The Apocalypse Chase by Graham Spence

5 stars

Enlightening, transformational, action-adventure journey.

Chris Stone is someone who has never known terror. The reason why terror is alien to him is because his life is dull and boring. His wife and daughter, Maggie and Caitlin, had left him to his dull, unmotivated, useless life, to get on with their own.

When Chris has what appears to be a nervous breakdown, he packs up his old life in search of an adventure; a change or anything that will give him a reason to live.

The first adventure is fishing in South Africa where Chris comes face to face with terror and death. Even when, in a crazy turn of events, he ends up on a yacht he has a life-threatening but very amusing adventure.

He goes back to Long Island, where his ex-wife and daughter greet him with renewed enthusiasm because of the media coverage of his daring escape from criminals in South Africa. But his adventure is not over and he immediately makes plans to visit Colombia, which brings a new set of outlandish experiences and includes some of the best fishing in the world. After surviving Colombia and a brief visit home, he follows his sense of adventure to Chechnya and Canada, where he also has exceptional fishing and more incredible adventures.

Chris experiences a transformed relationship with his daughter and a renewed energy for life. Completely uplifted Chris is ready to tackle the rest of his life on his own terms.

This book is absolutely worth reading, particularly for Spence's ability to immerse the reader into adventure with dramatic imagery. You will be enthralled.
