

The Bishop's Pawn by Steve Berry

5 stars

Shocking discovery behind Martin Luther King, Junior's assassination.

Lieutenant Cotton Malone was the JAG lawyer in the early 2000s, investigating a missing, rare, gold coin. He discovered a box of classified FBI files underwater in the Florida Keys, ending up with gunfight against former FBI agents.

Ben Foster claimed that he was outside of the lodge below the balcony where MLK was allegedly shot by James Earl Ray. The history recorded the feud between MLK and J. Edgar Hoover, the FBI director who used illegal surveillance against the King family.

The files in the box revealed what really happened to MLK and the secret conversations, recorded onto the tapes with the transcripts leading up to his death.

This is a very mind-blowing novel which is well written fictionally by the good author, Steve Berry. This book is not to be missed!
